

“Providing a Balanced Approach to Natural Resource Management”

Seasonal Field Forester

Northwest Management, Inc., a full-service natural resource consulting firm located in Moscow, Idaho, is seeking resumes from motivated individuals with natural resource backgrounds.

Position Availability & Time Frame: Positions are open for qualified candidates available to begin field work in February, March, or April and continue through the end of the calendar year or longer. Time frames and start dates can be flexible.

Location: Based out of the main office in Moscow, Idaho. Extensive “out of town” traveling and driving is required, with expenses paid by the company. A bunkhouse is available for use for those not currently living within the Moscow area. This position works at outdoor settings on forested landscapes and requires extended time in the field on forestry projects. Field personnel work on uneven terrain, while working in all types of weather.

Duties: Field Forester will work under the direct supervision of a Professional Forester or Natural Resource Specialist within the following services of Northwest Management:

1. Inventory Services: collection of data using both traditional and LiDAR assisted inventory methods intended to develop estimates of marketable timber volume and provide clients with a detailed picture of forest health and condition.
2. Forest Health Management: designation and implementation of harvest boundaries, riparian buffers, planting administration, and forest roads.
3. Hazard Management (Fire & Fuels): Possibility for assignments on a Wildland Fire Engine. Applications of various prescribed burning methods (drip torch, propane, or helicopter assisted) intended to reduce hazardous fuel loads on client ownerships.
4. Any other opportunities within the Natural Resource industry that may occur.

Desired Qualifications for Candidates:

- Having or pursuing a Forestry or other Natural Resources related degree.
- One field season of natural resource related experience.
- Experience with timber cruising, inventory, and forest measurements.
- Wildland fire, or prescribed burning techniques
- Experience in timber sales preparation.
- Familiarity with navigation using map, compass, GPS, and GIS applications.
- History of working independently or as a crew member, with minimal supervision while maintaining a high quality of work.
- Leadership and planning experience is a plus.
